About

I love movies and music. I recently got a synthesizer and now every morning, I wake up my girlfriend with a riff from C.R.E.A.M Wu-Tang Clan.

Skills

M-E-R-N JavaScript
MongoDB HTML
Express CSS
React Webpack
Node.js

BEM

Figma

Experience

2021 - cur. 6 months	Yandex.Praktikum Front-end developer (student) I study and gain experience on projects that are checked by mentors and pass code reviews.
M-E-R-N	Project «Mesto» Functionality: An analogue of a social network where you can edit your profile, add/remove place cards and put likes. The data is transmitted and downloaded from the server. Technologies: MongoDB, Express, React, Node.js. Links: https://artchumak.nomoredomains.rocks , https://github.com/artem-chumak/react-mesto-api-full
Layout	Projects «Russian travel» and «Site» Functionality: Single-page landings with animation and adaptive layout. Технологии: HTML, CSS: flex, grid, media. BEM nested Links: https://github.com/artem-chumak/russian-travel , https://github.com/artem-chumak/Site
2011 - 2019 8 years	Banks: Citibank and BNP Paribas Sales / Manager What I did: Worked with clients. First as a manager in the department, and last as the head of the operational services department. Achievements: I optimized the collection of client data. As a result, colleagues began to spend less time and their mood improved, the business has saved on hiring.

In addition

Experience in design helps to work quickly with the layout and find a common language with designers. And work experience in big companies has taught me how to cut sharp corners.

Education

2019 - 2020 1 year	British Higher School of Art & Design	UX/UI designer
2002 - 2007 5 years	Industrial University	Management and Economy
