About

I love movies and music. I recently got a synthesizer and now every morning, I wake up my girlfriend with a riff from C.R.E.A.M Wu-Tang Clan.

Skills

M-E-R-N	OOP
MongoDB	JavaScript
Express	HTML
React	CSS
Node.js	Webpack
BEM	
Figma	

In addition

Experience in design helps to work quickly with the layout and find a common language with designers. And work experience in big companies has taught me how to cut sharp corners.

Experience

2021 - cur.
6 months

Yandex.Praktikum
Front-end developer (student)

I study and gain experience on projects that are checked by mentors and pass code reviews.

React
Vanilla JS

Projects «Mesto» and «Mesto-React»
Functionality: An analogue of a social network where you can edit your profile, add/remove place cards and put likes. The data is transmitted and downloaded from the server. The first is written in Vanilla JS, the second on the React library.
Technologies: HTML, CSS, JS, React, Node.js, Fetch, Webpack.

2011 - 2019
8 years

Banks: Citibank and BNP Paribas
Sales / Manager

What I did: Worked with clients. First as a manager in the department, and last as the head of the operational services department.
Achievements: I optimized the collection of client data. As a result, colleagues began to spend less time and their mood improved, the business has saved on hiring.

Education

2019 - 2020 *1 year*	**British Higher School of Art & Design**	UX/UI designer
2002 - 2007 *5 years*	**Industrial University**	Management and Economy
